

**DECLARATION OF RICHARD KAPLAN**  
**Pursuant to 28 U.S.C. § 1746**

I, Richard Kaplan, have personal knowledge of the facts and matters set forth below. If called as a witness, I could and would testify as follows:

1. I am a United States citizen over the age of 18. I am a Digital Investigative Analyst for the Federal Trade Commission ("FTC") in Washington, D.C. As discussed below, I have substantial experience in the acquisition and processing of electronic data in law enforcement matters, including hundreds of matters at the FTC and my prior employer, the Department of Justice ("DOJ"). I have testified in multiple cases.

2. My expertise includes analyzing metadata. It also includes performing forensic analyses to determine whether someone has deleted or modified data.

3. My duties currently include managing the collection, preservation, examination, and analysis of digital evidence, including, electronically stored information ("ESI"), which the FTC collects through voluntary submissions, discovery, and legal proceedings.

4. Prior to my employment with the FTC, I was employed by the United States Department of Justice, Criminal Division, Child Exploitation and Obscenity Section, High Technology Investigative Unit (HTIU), in Washington D.C. as a Digital Investigative Analyst. As a Digital Investigative Analyst, my duties included conducting computer forensic examinations on various computer media, which included: hard drives, CDs/DVDs, thumb drives, mobile devices and memory cards. Additionally, my duties included preserving, collecting, and analyzing digital evidence.

5. I hold a Bachelors of Science degree in Information Sciences and Technology from the Pennsylvania State University, a Masters of Sciences degree in Information Management from Syracuse University, and a Juris Doctor degree from Syracuse University.

6. I have completed formal classroom training in computer forensics and I am certified by the International Association of Computer Investigative Specialists (IACIS) as a Certified Electronic Evidence Collection Specialist (CEECS) and a Certified Computer Forensic Computer Examiner (CFCE).

7. I have completed formal classroom training in the use of forensic software programs from Guidance Software (EnCase) and the Access Data Corporation Forensic Toolkit (FTK). EnCase and FTK are two computer forensic software packages that are generally accepted by the scientific community for use in acquiring, processing and analyzing ESI. I have met the requirements for the EnCase Certified Examiner (EnCE) and the Access Data Certified Examiner (ACE) programs and received both certifications.

8. As a digital investigative analyst for the FTC, my duties include providing computer forensic support to FTC attorneys and investigators. In the course of my duties, the FTC assigned me to work on the FBAMachine matter.

9. On June 6<sup>th</sup>, 2024, I arrived at 2011 8 St S, North Bergen. While on-site, I was responsible for forensically preserving electronically stored information which included both data identified on-site or data remotely stored through various internet service providers.

10. On June 8<sup>th</sup>, 2024, while preserving Google Cloud data, I identified an email that indicated that the password for the user name, "steven@sales.support" for MongoDB was reset on 6/8/2022. MongoDB is a database service provider. To my knowledge, the FTC was unaware of this account. I have attached as **Attachments A-C** true and correct copies of these emails.

11. Google Drive is an online document storage and work platform. On June 13, 2024, I generated a Google Drive report to list all files that were modified on or after June 3, 2024. I have attached as **Attachment D** a true and correct copy of this report.

12. On June 8<sup>th</sup>, 2024, while preserving Google Cloud data, I identified an email that indicated that the primary admin contact for the Google Suites domain was changed from "steven@thefbamachine.com" to "steven@sales.support." The primary admin contact receives all billing and account notifications from the Google Suite. I have attached as **Attachment E** a true and correct copy of this email.

I declare under penalty of perjury that the foregoing is true and correct.

Executed in Arlington, Virginia, June 13, 2024.

---

Richard Kaplan

## Successful sign-in for steven@sales.support from new device

---

cloud-manager-support@mongodb.com MongoDB Cloud Saturday, June 8, 2024 at 5:13:54 AM Pacific Daylight Time  
To: cloud-manager-support@mongodb.com  
To: steven@sales.support

We're verifying a recent sign-in for **steven@sales.support**:

**Timestamp:** 2024-06-08 12:13:54 GMT

**IP Address:** 73.245.200.53

**User agent:** Mozilla/5.0 (Windows NT 10.0; Win64; x64) AppleWebKit/537.36 (KHTML, like Gecko) Chrome/125.0.0.0 Safari/537.36

You're receiving this message because of a successful sign-in from a device that we didn't recognize. **If you believe that this sign-in is suspicious, [please reset your password immediately](#).**

If you're aware of this sign-in, please disregard this notice. This can happen when you use your browser's incognito or private browsing mode or clear your cookies.

Thanks,

MongoDB Team
